Professional Summary

Full-stack developer with hands-on experience building web applications using modern development tools and frameworks. Familiar with REST APIs, databases, authentication, and writing clean, maintainable code. Focused on continuous learning and growing as a software engineer.

Education

Netaji Subhash Engineering College — MAKAUT, West Bengal	2022 — 2026
B.Tech in Information Technology	CGPA: 8.11
Jeewan Public School — CBSE	2020 — 2021
12th Grade	95.2%
Jeewan Public School — CBSE	2018 — 2019
10th Grade	96%

Experience

IT Tech Software, Navi Mumbai — Web Developer Intern (Remote)	Apr 2024 — Jun 2024
- Contributed to the development of a student-college platform by building responsive UI components using Tailwind CSS and component libraries like shadcn/ui. - Implemented data visualization features (charts and graphs) to present application data in a more intuitive format. - Assisted in integrating REST APIs and collaborated with the development team to ensure smooth and reliable data flow across the application.	

Projects

Media Optimization SaaS	GitHub
<i>Next.js (App Router), Cloudinary, Prisma, PostgreSQL (NeonDB), Clerk, Tailwind CSS, DaisyUI</i>	
- Built an AI-powered media processing SaaS platform using Next.js, implementing authentication, session handling, and protected routes with Clerk. - Integrated Cloudinary AI-based services for automated image transformation, including resizing, cropping, and format optimization for different use cases. - Developed a media upload and optimization workflow to improve storage efficiency and content delivery performance. - Designed backend APIs using Prisma ORM with PostgreSQL, managing metadata and serving optimized media via CDN.	

ReviewBot — AI-Assisted Code Review Platform	GitHub
<i>React, Node.js, Express, Google Gemini API, Tailwind CSS</i>	
- Developed a full-stack application that processes code snippets and provides feedback using AI-generated suggestions. - Integrated Gemini API with a Node.js and Express backend to generate real-time code reviews. - Built a responsive UI to display structured feedback in Markdown format, improving readability and overall user experience.	

Technical Skills

Languages	C++, JavaScript
Frameworks / Libraries	React.js, Next.js, Node.js, Express.js, Tailwind CSS
Databases	PostgreSQL, MongoDB, MySQL
Tools	Git, GitHub, Postman, Prisma, Cloudinary, Clerk
Core Concepts	OOP, DBMS, REST APIs
Problem Solving	Solved 200+ DSA problems on LeetCode and GeeksforGeeks using C++

Certifications

The Complete Full-Stack Web Development Bootcamp — Udemy
- Completed a comprehensive full-stack web development program focused on building scalable web applications. - Built multiple projects to understand end-to-end development, including frontend, backend, and database integration. - Gained working knowledge of MERN stack (MongoDB, Express.js, React, Node.js) and RESTful API development.

SQL for Data Science — University of California, Davis

- Learned **basic SQL concepts**, including SELECT queries, joins, filtering, and aggregations.
- Practiced writing queries for data retrieval and simple analysis on relational databases.

Achievements

- Innovatrix 23 Hackathon**: Secured **1st place** in HUDN track and **2nd place** in Writesonic fun-game.
- Built **Code Connect**, a gamified learning platform with quizzes and a chatbot for DSA and OOPs concepts.
